Resource Network

Taking Mental Health Care to the Streets

Outside the Box - Providing Mental Health Care to People Without Shelter

**Thursday, June 27, 2019
3:30 - 5:00 p.m. (ET)**

Please join us for the third webinar in the three-part Spotlight Series, ***Taking Mental Health Care to the Streets***. This webinar will focus on the provision of mental health services to people living in encampments.

Participants will learn strategies for providing care to individuals with serious mental illness, substance use disorders, or co-occurring disorders who are in unsheltered environments, both to address immediate needs and to provide foundational support for community-based permanent care that can continue through a person's transition from living in an encampment to permanent housing.

Participants will learn how to:

- Determine when and how to provide treatment for mental and/or substance use disorders in encampments and other unsheltered environments;

- Connect people living in encampments to mental health resources in the community to help build a sustainable support network to assist with the transition into permanent housing; and
- Include the provision of mental health care and recovery supports in plans for clearing encampments.

The following panelists will share their expertise:

- **Liz Frye, M.D., MPH**, Founder and former Director, Psychiatry & Street Medicine, Mercy Care, Inc., Atlanta, Georgia
- **Juntira Laothavorn, M.D.**, Addiction Psychiatrist, Mercy Care, Inc., Atlanta, Georgia
- **Jennielynn Holmes, MPA.**, Chief Program Officer, Catholic Charities of the Diocese of Santa Rosa, Santa Rosa, California
