WEEKLY REPORT

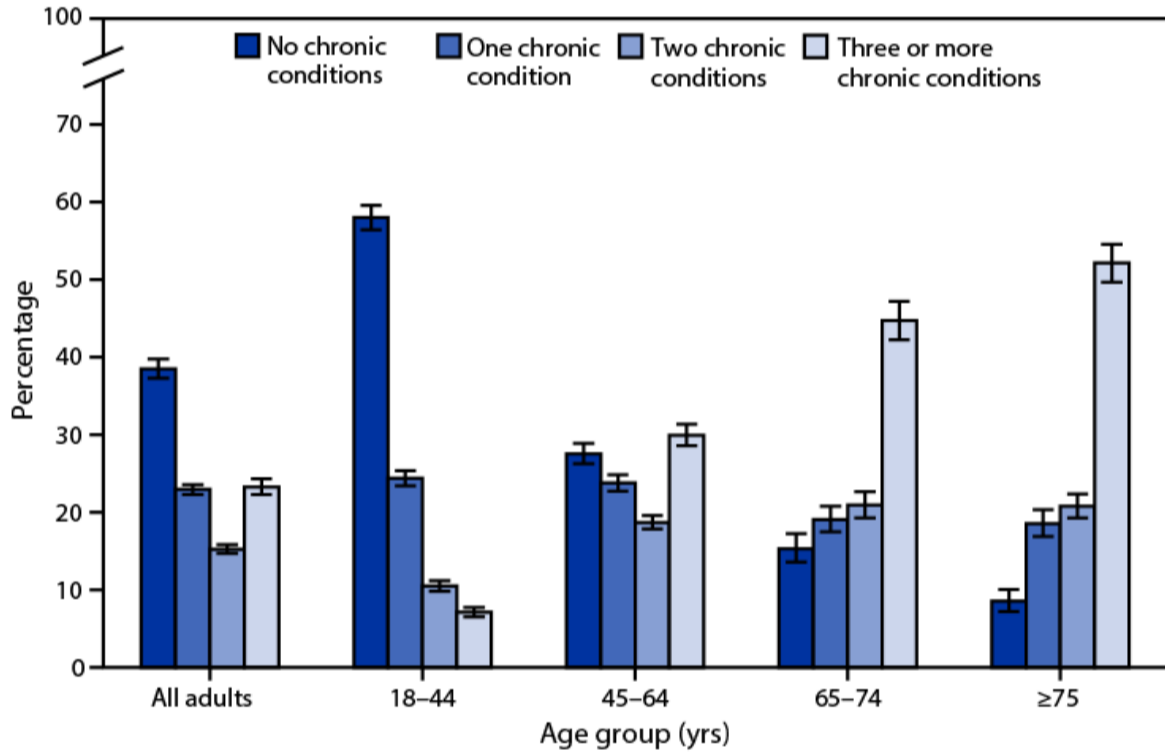

[Alcohol Consumption and Binge Drinking During Pregnancy Among Adults Aged 18-49 Years – United States, 2018-2020](#)

During 2018-2020, 13.5% of pregnant adults in the United States reported current drinking and 5.2% reported binge drinking in the past 30 days. Those with no usual health care provider and those reporting frequent mental distress were more likely to consume alcohol.
